

BMO Harris Bank

A Subsidiary of Bank of Montreal

“BMO Harris was able to realize an immediate savings of \$5M per year with ongoing reductions. It’s had a great payback for us as well as meeting the regulatory requirements.”

Darryl Lueck

VP and Lead Technology Officer

\$5M Immediate Annual Savings with EMC InfoArchive

Through application retirement and the same ongoing reduction the years following due to reduced licensing fees, infrastructure and support costs.

Find out how BMO Harris Bank implemented a low cost, long-term data retention solution for legacy applications.

CHALLENGE

BMO Harris Bank grew rapidly through acquisition activity. With it came legacy applications costing serious dollars to keep running. BMO Harris Bank had several requirements to access retired data including retention and purging, in addition to data integrity and security.

SOLUTION

Via the EMC InfoArchive Solution, BMO Harris Bank was able to quickly retire legacy applications and free up dollars for IT innovation. EMC InfoArchive enables quick data retirement, purge and retention policy implementation, and audit functionality.

ELIMINATED FEES

\$285K/month that kept legacy applications in read-only mode

IMPLEMENTED FASTER

Project completed within 12 weeks instead of 12 months

FREED UP FUNDS

\$3.8M annually for innovative IT projects by eliminating only one main application
